

# BUILDING POSSIBLE

Carrier is a global provider of building technologies. Our fire safety, security, building automation, heating, ventilating, air-conditioning and refrigeration systems and services promote integrated, high-performance buildings that are safer, smarter and sustainable.

Each day, the work we do redraws skylines, makes cities around the world more intelligent and sustainable, and provides food, comfort, safety and security to billions and counting. In the spirit of giants like Carrier, Kidde, Edwards and Chubb, we dare to ask what's possible – then we reimagine it, reinvent it and set out to build it.

By embracing challenges, innovating responsibly and intelligently, and pushing boundaries, we make the world a better place to live. That's what Building Possible is all about.

We put intelligent products and solutions to work every day in numerous industries all over the world, including:

- Data Centers
- Marine
- Oil and Gas
- Education
- Medical
- Refrigeration
- Hospitality
- Offices
- Residential

Through 2017, Carrier sustainability accomplishments include:

Baseline: 2016 data adjusted for acquisitions and divestitures

## Carrier—Global Footprint
